

BOTTLE HANDLING CONVEYORS

BOTTLE
HANDLING
CONVEYORS

RELIABLE • EFFICIENT • VERSATILE

Our Bottle Handling Conveyors are designed to move and align bottles smoothly and efficiently throughout your production line. Built for reliability and easy integration, these conveyors help streamline workflow and improve overall line efficiency.

RELIABLE

Built with quality components for long-term performance.

EFFICIENT

Ensures smooth and consistent movement of bottles.

VERSATILE

Adjustable design to accommodate a wide range of bottles.

EASY INTEGRATION

Designed for seamless integration into existing production lines.

KEY FEATURES

SMOOTH TRANSPORT

Precision chain conveyor delivers smooth and stable bottle handling.

ADJUSTABLE GUIDES

Side rails and guides are adjustable for various bottle sizes.

HEIGHT ADJUSTABLE

Stainless steel support legs are height adjustable for easy setup.

DEPENDABLE DRIVE

Reliable drive system ensures consistent and efficient operation.

TECHNICAL SPECIFICATIONS

Conveyor Type	Chain conveyor
Frame Construction	Stainless steel
Guide Rails	Adjustable
Drive	Variable speed motor
Speed	Variable speed
Controls	Speed control
Power Requirements	110V, 1 Phase, 60Hz
Application	Transports and handles bottles along production line

 **CONFIGURATION NOTE**
Standard configuration includes chain conveyor with adjustable guide rails and variable speed drive.
