

ROTARY TABLE

RA-59

ROTARY TABLE

RELIABLE • EFFICIENT • VERSATILE

The RA-59 Rotary Table is designed to efficiently accumulate containers to your production line. Built for reliability and smooth operation, it helps improve workflow and ensures consistent movement for increased line efficiency.

- EFFICIENT**  
Accumulates containers to improve line efficiency.
- VERSATILE**  
Compatible with a wide range of containers and equipment.
- RELIABLE**  
Built with quality components for long-term performance.
- SMOOTH OPERATION**  
Provides consistent and dependable container movement.

KEY FEATURES

- CONTINUOUS FLOW**  
Designed to accumulate containers for a steady production flow.
- ADJUSTABLE SPEED**  
Variable speed control for smooth and consistent operation.
- STAINLESS STEEL CONSTRUCTION**  
Durable stainless steel construction for reliability and easy maintenance.
- COMPACT DESIGN**  
Compact design for easy integration into existing production lines.

TECHNICAL SPECIFICATIONS

|                    |                     |
|--------------------|---------------------|
| Model              | RA-59               |
| Table Diameter     | 60" (inch) Diameter |
| Speed              | Variable speed      |
| Drive              | DC motor            |
| Frame Construction | Stainless steel     |
| Power Requirements | 110V, 1 Phase, 60Hz |
| Controls           | Speed control dial  |
| Guide Rail         | Adjustable          |
